The field of statistics is rich with details and theory that cannot even begin to be touched in this unit. A true study of statistics and the interpretation and comparison of data sets truly needs deeper treatment than what is given in this time-limited course.

Unit 12 “ Statistics ” eMathInstruction

Algebra (from Arabic "al-jabr", literally meaning "reunion of broken parts") is one of the broad parts of

mathematics, together with number theory, geometry and analysis. In its most general form, algebra is the study of mathematical symbols and the rules for manipulating these symbols; it is a unifying thread of almost all of mathematics.
