Assessing â€œDangerous Climate Changeâ€: Required Reduction of Carbon Emissions to Protect Young People, Future Generations and Nature. James Hansen ,

Assessing â€œDangerous Climate Changeâ€: Required Reduction

Global warming, also referred to as climate change, is the observed century-scale rise in the average temperature of the Earth's climate system and its related effects. Multiple lines of scientific evidence show that the climate system is warming. Many of the observed changes since the 1950s are unprecedented in the instrumental temperature record, and in paleoclimate proxy records of climate ...

Global warming - Wikipedia

Given EPAâ€™s current estimates of CH 4 leakage from natural gas production and delivery infrastructure, in addition to a modest CH 4 contribution from the vehicle itself (for which few empirical data are available), CNG-fueled vehicles are not a viable mitigation strategy for climate change. Â§ Converting a fleet of gasoline cars to CNG increases radiative forcing for 80 yr before any net ...

Greater focus needed on methane leakage from natural gas

Vital Signs of the Planet: Global Climate Change and Global Warming. How do we know itâ€™s happening? Hereâ€™s the evidence.

Evidence | Facts â€“ Climate Change: Vital Signs of the Planet

Climate is the statistics of weather over long periods of time. It is measured by assessing the patterns of variation in temperature, humidity, atmospheric pressure, wind, precipitation, atmospheric particle count and other meteorological variables in a given region over long periods of time. Climate differs from weather, in

that weather only describes the short-term conditions of these ...

Climate - Wikipedia

Most nations recently agreed to hold global average temperature rise to well below 2 °C. We examine how much climate mitigation nature can contribute to this goal with a comprehensive analysis of "natural climate solutions" (NCS): 20 conservation, restoration, and/or improved land management actions that increase carbon storage and/or avoid greenhouse gas emissions across global forests ...
