

database systems the complete pdf

The following tables compare general and technical information for a number of relational database management systems. Please see the individual products' articles for further information.

Comparison of relational database management systems

In database systems, atomicity (or atomicness [citation needed]; from Greek atomos, undividable) is one of the ACID (Atomicity, Consistency, Isolation, Durability) transaction properties. An atomic transaction is an indivisible and irreducible series of database operations such that either all occur, or nothing occurs. A guarantee of atomicity prevents updates to the database occurring only ...
