Adobe Acrobat is expensive, but that doesn't mean you have to live a life without portable documents. What many people don't realize is that PDF is a Federal Information Processing Standard, which means the specifications behind the format are widely published. Numerous developers take advantage of this fact and create programs that offer effective alternatives to Acrobat.

PDF Editing & Creation: 40+ Opensource/Free alternatives

Video editing software is an application program which handles the post-production video editing of digital video sequences on a computer non-linear editing system (NLE). It has replaced traditional flatbed celluloid film editing tools and analogue video tape-to-tape online editing machines.. NLE software is typically based on a timeline interface paradigm where sections of moving image video ...
