66th ECTC Highlights Best Papers. 1) Best Session Paper High-Frequency Analysis of Embedded Microfluidic Cooling Within 3-D ICs Using a TSV Testbed

ECTC | IEEE Electronic Components and Technology Conference

Indecision and delays are the parents of failure. The site contains concepts and procedures widely used in business time-dependent decision making such as time series analysis for forecasting and other predictive techniques

Time Series Analysis for Business Forecasting

About 68% of values drawn from a normal distribution are within one standard deviation σ away from the mean; about 95% of the values lie within two standard deviations; and about 99.7% are within three standard deviations. This fact is known as the 68-95-99.7 (empirical) rule, or the 3-sigma rule.. More precisely, the probability that a normal deviate lies in the range between $\hat{\mu} - \sigma$ and $\hat{\mu} + \sigma$ is ...

International Journal of Engineering Research and Applications (IJERA) is an open access online peer reviewed international journal that publishes research ..

Peer Reviewed Journal - IJERA.com

Research Summary. My current research is at the intersection of communication theory, signal processing, and information theory. A primary research thrust is the advancement of MIMO (multiple-input multiple-output) communication technology including space-time coding, efficient receiver algorithms, channel quantization, synchronization, scheduling algorithms, cross-layer design for MIMO ad hoc ...
