

**global culture nationalism globalization pdf**

Nationalism is a political, social, and economic system characterized by the promotion of the interests of a particular nation, especially with the aim of gaining and maintaining sovereignty (self-governance) over the homeland. The political ideology of nationalism holds that a nation should govern itself, free from outside interference and is linked to the concept of self-determination.

**Nationalism - Wikipedia**

Globalism is a term that has been used to refer to various systems with scope beyond the merely international, though in contemporary usage it is primarily used to refer to those that see globalization in a positive light, i.e. by detractors of globalization such as various national populist movements. While primarily associated with world-systems, other things with global reach have also been ...
