

global political economy o pdf

Political economy is the study of production and trade and their relations with law, custom and government; and with the distribution of national income and wealth. As a discipline, political economy originated in moral philosophy, in the 18th century, to explore the administration of states' wealth, with "political" signifying the Greek word polity and "economy" signifying the Greek word ...

Political economy - Wikipedia

The complex politics of global warming results from numerous cofactors arising from the global economy's interdependence on carbon dioxide (CO₂) emitting hydrocarbon energy sources and because CO₂ is directly implicated in global warming – making global warming a non-traditional environmental challenge.
