SHEEP MINERAL Our own High Selenium, Free Choice Mineral formulated just for sheep. It contains molybdenum to prevent copper toxicity and it is made without any added copper.

Hunter Nutrition || Sheep Mineral

A mineral is a naturally occurring chemical compound, usually of crystalline form and not produced by life processes. A mineral has one specific chemical composition, whereas a rock can be an aggregate of different minerals or mineraloids. The study of minerals is called mineralogy.. As of March 2018, there are more than 5,500 known mineral species; 5,312 of these have been approved by the ...

Weathering is the breaking down of rocks, soil, and minerals as well as wood and artificial materials through contact with the Earth's atmosphere, water, and biological organisms. Weathering occurs in situ (on site), that is, in the same place, with little or no movement, and thus should not be confused with erosion, which involves the movement of rocks and minerals by agents such as water, ice ...
