We describe the new dialogic organization development (OD) fleshed out by Bushe & Marshak (2009). In comparing this approach with the old diagnostic OD, we explore the limitations of Lewin's (1947) unfreeze-change-freeze model for depicting organizational change over time.

Beyond Lewin: Toward a Temporal Approximation of

Despite the widespread interest in the topic of organizational citizenship behaviors (OCBs), little empirical research has tested the fundamental assumption that these forms of behavior improve the effectiveness of work groups or organizations. This article examines the assumption that OCBs improve the effectiveness of work groups or organizations in which they are exhibited.

Impact of Organizational Citizenship Behavior on

Leadership studies is a multidisciplinary academic field of study that focuses on leadership in organizational contexts and in human life. Leadership studies has origins in the social sciences (e.g., sociology, anthropology, psychology), in humanities (e.g., history and philosophy), as well as in professional and applied fields of study (e.g., management and education).

Leadership studies - Wikipedia

Introduction and research questions. The purpose of the study is to craft the relation between process model and change, this relation describes the ways of implementing change process by leader's knowledge sharing, and this sharing identifies the stages of change process, and these stages delineate the functional significance between organizational change and change implementation.
