A date rape drug is any drug that is an incapacitating agent which – when administered to another person – incapacitates the person and renders them vulnerable to a drug-facilitated sexual assault (DFSA), including rape. One of the most common types of DFSA are those in which a victim consumes a recreational drug such as alcohol that was administered surreptitiously.

A false accusation of rape is the reporting of a rape where no rape has occurred. It is difficult to assess the true prevalence of false rape allegations, but it is generally agreed that, for about 2% to 10% of rape allegations, a thorough investigation establishes that no crime was committed or attempted.

Tactics. The Spartans had three advantages over the hoplites of the rest of Greece. Their physical training is the most famous, but the truly decisive ones were the discipline to turn their phalanx (meaning they could suddenly change direction and charge an enemy phalanx on the side, if the terrain allowed it) and knowing how to use their decorative swords.
