Project Portfolio Management (PPM) is the centralized management of the processes, methods, and technologies used by project managers and project management offices (PMOs) to analyze and collectively manage current or proposed projects based on numerous key characteristics. The objectives of PPM are to determine the optimal resource mix for delivery and to schedule activities to best achieve ...

Project portfolio management - Wikipedia

For a French translation, please see here! To start with Docear as smooth as possible, we wrote this manual. It's detailed, it's long, it takes some time to read, but be assured that if you invest this time, you will know how to master one of the most powerful tools to manage your academic literature.
