Total cost of acquisition (TCA) is a managerial accounting concept that includes all the costs associated with buying goods, services, or assets.. Generally, it is the net price plus other costs needed to purchase the item and get it to the point of use. These other costs can include: the item's purchasing costs (closing, research, accounting, commissions, legal fees), transportation ...

### **Total cost of acquisition - Wikipedia**

Relationship between cost of goods sold and sales is called cost of goods sold ratio. It is also called cost of sales to revenue ratio. It is the part of ratio analysis for checking the efficiency of business. You know that

cost of goods sold is the main part of total business expenses. If you have to sell, it means, you have to buy or use stock in your store which you have bought in past.
