telecommunication switching systems and pdf
Telecommunication is the transmission of signs, signals, messages, words, writings, images and sounds or information of any nature by wire, radio, optical or electromagnetic systems. Telecommunication occurs when the exchange of information between communication participants includes the use of technology.It is transmitted either electrically over physical media, such as cables, or via ...

Telecommunication - Wikipedia
The history of telecommunication began with the use of smoke signals and drums in Africa, the Americas and parts of Asia.In the 1790s, the first fixed semaphore systems emerged in Europe; however it was not until the 1830s that electrical telecommunication systems started to appear. This article details the history of telecommunication and the individuals who helped make telecommunication ...

History of telecommunication - Wikipedia
`(A) established before the date of enactment of the Telecommunications Act of 1996 by a Bell operating company such that no exchange area includes points within more than
